

MADONNA DEL SASSO SCHOOL

"...to motivate, instruct, and nurture..."

February 28, 2011

Members of the Madonna del Sasso Community:

The accreditation process is complete. We will have a copy of the Report of Findings in the office if you care to read it. The short version is that we did very well.

I am particularly pleased that the committee was composed of "our competition", faculty from Sacred Heart, San Carlos and Junipero Serra. That the chairperson is an Assistant Superintendent of the Archdiocese with the largest number of Catholic schools in California is significant—since she is deeply familiar with over 200 Catholic schools.

The report praised our Catholic Identity as one of our great strengths and highlights the service learning program and integration of the faith throughout the curriculum.

The report is somewhat stiff since it follows a prewritten script. However, the comments of the committee in written notes and in their oral report to the staff contained the words "amazing" and "outstanding", "strong Catholicity and academic excellence".

They had some tears in their eyes when they talked about our "amazing community full of love, respect and reverence".

I am very proud of this school and as part of our community you can be proud too.

Charles E. White, Ed.D.
